REFI BLICANS STAND BY THE SOLDIERS.

WASHINGTON, Feb. 18.—Representative Miliarl of the committee on reform in the civil service be-day submitted a minority report, signed by the recublican members of the committee in favor of Representative Taylor's bill to prohibit the discharge of honorably discharged soldiers or minors, or dependent relatives, from any office in the civil service of the United States, except for cause. The report says in part. This class of government employes have a claim'upon the gratitude of the nation that can not easily be compensated. They saved the country from dismenderment and dishonor. We submit it is half just and proper recognition of their claims that they should be retained in the gratical faithfully and efficiently perform their efficial duties. The bill is eminently just in its provisions, and should be based, with the following ament diagon: It shall not apply to the class of efficers enbraced in the original tenure of office act passed March 3, 1887, and a needed April 5, 1899.

VALUATIONS AND TAXES.

ROSERUSO, Feb. 16.
To THE EDITION OF THE OLEGONIAN:
As a solution of the "tax's puzzle" it seems to mp is fair way would be to rate property and money with regard to their sarring power.
For example, if money loaned on mortgages cyrns, 10 per cent, and money invested in manufacturing or farming carne-only 5 per cent, the difference should be taken into account, by the exposito per cent and money invested in mananicturing or farming carns only 5 per cent, the
difference should be taken into account by the
assessors and rated accordingly. In other words,
noney carning 10 per cent, should pay double
the rate that money carning only 5 per cent,
tays. The income of money secured by mortgage is absolutely certain, while the income of
the industries is to some existen precarous.
This is the reason why men of capital prefer to
then their money rather than take channes by
investing in enterprises that would build up indirect near and develop the resources of the sinks.
It devit believe there is a begin in Douglas,
county that is paying 5 per cent, but the motority of
farms are run at a loss and the dwners steadily
falling in debt.
Still The Obseronan insists on a higher valunion of real estate and no deduction of debts.
Another hardship that falls on the farmer is the
valuation of vehic is called improvements.

Landumeter fence is called "improved land."
Count the cold of all the foncing in the saite, atCount the cold of all the foncing in the saite, atCount the cold of all the foncing in the saite, atCount the cold of all the foncing in the saite, atCount the cold of all the foncing in the saite, atCount the cold of all the foncing in the saite, atthe head of improvementa. Why not call an inturpnee policy an improvement and tax it also?
I protects the bulder against loss, and that is
about all the ferree does for the farmer.

If the legislature, instead of exempting credsix would plass a law exempting some of the
riruggling industries from taxation for a period
of years it would do a greater benefit to the
state.

The point is whether they will continue ap I think not if they do all hopes of in improvement in values must be abandoned if think you will and that our Eng ish farmers have delivered whest since last September, and if this is so, present lange deliveries make the future all the strong er for holding. English farmers are builty of wheek since as t septamore, and it has to be present Large deliveries make the future all the stronger for holding. English farmers are trially of procusiarily. There is not much doubt about that and they must realize a certain amount of mode, on the erops. Therefore, as prices have ruled allow, it follows that they have been obliged to part with so much the more wheat it order to realize an equal-amount is that realized styler. The natural afterence is that they have so much the level of had now, but lattracted by the recent advance they are drawn to an extra extent upon the ricesers of the mode, step of loss a chance.
